

## FAQ

- **Why should I come to the dental lab?**
- To fully utilise our skills as ceramists we need to have as much information as possible from you. This can only be achieved by seeing your natural dentition.
- **What will happen when I get there?**
- One of our ceramists will discuss your expectations, take oral photographs and produce a chromatic map of your teeth.
- This will take about 20-30 mins.
- **When can I visit?**
- We are open from 8.30am to 4.30pm Monday to Friday. The best natural light for shade matching occurs in the morning .
- Please contact us to arrange a convenient appointment.
